

# PYROSLIP WAXTIX

## GRAPHITE LUBRICATING STICKS

Pyroslip Waxtix Graphite Lubricating Sticks are high temperature lubricants and parting agents. When applied to fixed dummy blocks, container faces and butt shears their graphite film reduces wear and serves as a releasing agent.

### BENEFITS

- Extended periods between application
- Minimal flaming
- Low lubricant runoff during application
- Eliminates blistering caused by similar lubricants
- Excellent release agent

### AVAILABILITY

Twelve sticks per box

### PHYSICAL PROPERTIES

Property	Value
